There seems to be quite a rush of hands to the Loveland timber job, on the head of Stillwater. Wm. Lawson has secured the contract to log the boundary, and W. L. Hurst the contract to do the tramming.

There has been for the past two or three months too much "corn juice" in this section, which is proving very demoralizing to the community. Everything is good in its place, but when out of place is very annoying.

Clint Taylor is very low with typhoid fever. Mr. Taylor is a man who is liked by all who know him and his many friends and neighbors are attending him and extending him a helping hand. Mr. Taylor and family have the sympathy of the entire community as they have had so much sickness the past year.

We were living in hopes and thought we were soon going to have a railroad through this section at once as the M. C. road was to be extended to Hazel Green provided the right of way was given on the survey. The people of this section very readily gave it, but we learn some few individuals on the Stillwater side refused to sign the right of way. We don't know how they figure it as they haul their ties 12 miles to Helechwah when they could get the same price for them at home. I have figured on several different rules and went to the book where I got the squirrel problem and somehow it won't figure out. So I will ask Mr. Lampton to please figure it out and give me the correct answer.

July 26. BERTIE.

Scientists have found in a cave in Switzerland bones of men, who lived 100,000 years ago, when life was in constant danger from wild beasts. Today the danger, as shown by A. W. ### \$100 REWARD! \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. CHENEY & CO., Toledo, O.
